"STUDENTS SATISFACTION SURVEY "/ " STUDENTS FEEDBACK ON TEACHING-LEARNING PROCESS" ANALYSIS REPORT YEAR 2023-24 AS ON DATED 9.5.2024 (TOTAL 600 STUDENTS PARTICIPATED THROUGH ONLINE MODE)

Attributes / Statements	RESPONSE POINT VALUE	1. POOR	2. FAIR	3. Neutral/ no opinion/don't know/ good	4. VERY GOOD	5. EXCELLENT	Sentiment score	Sentiment score in %	Students suggestions to improve the overall teaching – learning process at GIFT Autonomous
1. How much of the syllabus was covered in the class?	(5) 85 to 100% (4) 70 to 84% (3) 55 to 69% (2) 30 to 54% (1) Below 30%	10	29	128	316	117	3.84	77	1) Give experience teacher for Diploma Students as they are young they need to understand the concept easily , Some teacher don't know anything 2:- Provide all materials needed in lab of some subject and proper working system lab
2. How well did the teachers prepare for the classes?	(5)Thoroughly (4)Satisfactorily (3) Poorly (2)Indifferently (1) Won't teach at all	6	21	51	364	158	4.08	82	1st - faculty is not explaining anything properly. 2nd - faculty gone lazy to clear the doubt. 3rd - gift college never take responsibility for their students in any way they don't take responsibility
3. How well were the teachers able to communicate?	(5) Always effective (4) Sometimes effective (3) Just satisfactorily (2) Generally ineffective (1) Very poor communication	11	22	129	157	281	4.13	83	The students teachers interaction should be more, rather than focusing on theoretical knowledge the teacher should give examples on the basis of practical.Also the teacher should interact friendly so that students won't fear to ask their doubts.
4. The teacher's approach to teaching can best be described as	(5) Excellent (4) Very good (3) Good (2) Fair (1) Poor	17	36	172	211	164	3.78	76	Some teachers only focusing on 10-15 students out of 76 students so that they create partiality . if all the teachers focus all the students and know their week point and give advice to improve them then all the students give intrest towards that subject.

5. Fairness of the internal evaluation process by the teachers.	**(5) Always fair** **(4) Usually fair** **(3) Sometimes unfair** **(2) Usually unfair** **(1) Unfair**	20	23	89	219	249	4.09	**82**	please maintaining equality for all students (like tol students as well as poor students)
6. Was your performance in assignments discussed with you?	**(5) Every time** **(4) Usually** **(3) Occasionally/ Sometimes** **(2) Rarely** **(1) Never**	40	47	90	200	223	3.87	**77**	
7. The institute takes active interest in promoting internship, student exchange, field visit opportunities for students.	**(5) Regularly** **(4) Often** **(3) Sometimes** **(2) Rarely** **(1) Never**	23	61	122	154	240	3.88	**78**	1) Rather than increasing the number of exams , increase the number of placement percentage with good handson salary ,not 4-5 lp but more than that at your campus. 2) Due tu excessive module test many of us are unable to participate in hacckthons, complete online certification courses and not able to focus on skill development rather than only reading syllabus. 3) Strongly recommend to stop ▢ modular test from next semester onwards for better time utilisation in building skills needed in industries not the theories needed to clear the exam.
8. The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth.	**(5) Signifi cantly** **(4) Very well** **(3) Moderately** **(2) Marginally** **(1) Not at all**	36	31	123	264	146	3.76	**75**	Be friendly with students and catch the backbenchers
9. The institution provides multiple opportunities to learn and grow.	**(5) Strongly agree** **(4) Agree** **(3) Neutral** **(2) Disagree** **(1) Strongly disagree**	21	46	137	241	155	3.77	**75**	College time should be less so that students can get more time in self studies and online course it can increase our cv, Secondly please focus on extra actives in clg like function fest and many more students will share the events of the clg in social media it will increase chance more students admission

10. Teachers inform you about your expected competencies, course outcomes and programmee outcomes.	**(5) Every time** **(4) Usually** **(3)Occasionally/ Sometimes** **(2) Rarely** **(1) Never**	17	52	92	211	228	3.97	**79**	
11. Your mentor does a necessary follow-up with an assigned task to you.	**(5) Every time** **(4) Usually** **(3) Occasionally/ Sometimes** **(2) Rarely** **(1) I don't have a mentor**	4	59	78	183	276	4.11	**82**	Give some time to student for completing the part of the course which are already complete in class ,It improve students understanding power.Give some idea about what students going to read ,why students need this topic or subject to read,but due to less time for semester exam teachers direct focus to completion of syllabus without take an eye on what students learn from it. And last one from this semester a modulewise exam are conduct due to this when student work study one chapter and have to give exam on previous chapter students only focus on previous chapter not the current one so its very harmful for student at the time of next modular test
12. The teachers illustrate the concepts through examples and applications.	**(5) Every time** **(4) Usually** **(3) Occasionally/ Sometimes** **(2) Rarely** **(1) Never**	14	47	63	218	258	4.10	**82**	1.To give same important to all subjects equally. 2. To complete syllabus in particular time and in fruitful way. 3. Have a conversation between teacher and student to clarify what problems individual faces. 4.To listen to students doubt or worry to some extent that can make student relax before exam.
13. The teachers identify your strengths and encourage you with providing right level of challenges.	**(5) Fully** **(4) Reasonably** **(3) Partially** **(2) Slightly** **(1) Unable to**	35	65	104	176	220	3.80	**76**	The college takes most of the time of students and make them tired and exhausted which leads students towards less effective to there field and innovation, studying through out the whole six day a week feels like studying in school which doesn't help students to grow mentally
14. Teachers are able to identify your weaknesses and help you to overcome them.	**(5) Every time** **(4) Usually** **(3) Occasionally/ Sometimes** **(2) Rarely** **(1) Never**	55	71	94	165	215	3.69	**74**	Make sure we have proper basketball court so we can encourage other college students to visit here and play with us as well as it will increase college popularity. 2)marks should be checked fairly as per written on the exam. 3) teacher should be on time and be effective in class. 4) college must encourage extracurricular activities rather than projects that will refreshen students mind and also may get to find students interest in games.4) college should built a sports community

Question	Options	(1)	(2)	(3)	(4)	(5)	Avg	%	Comments
15. The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process.	**(5) Strongly agree (4) Agree (3) Neutral (2) Disagree (1) Strongly disagree**	20	41	116	260	163	3.84	**77**	Study is very long. Practical knowledge isn't provided. Most of the machine is not in working condition. Sports period is not there. As a dayscholar I get problem while coming to college in this summer time.
16. The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences.	**(5) To a great extent (4) Moderate (3) Some what (2) Very little (1) Not at all**	35	49	71	259	186	3.85	**77**	Interact with student what is the need of students, and a little changes of management.But or college is very good
17. Teachers encourage you to participate in extracurricular activities.	**(5) Strongly agree (4) Agree (3) Neutral (2) Disagree (1) Strongly disagree**	24	31	116	233	196	3.91	**78**	Use better graphics and visual media to engage students well. ... Try to reach every student and ask for their doubts. ... Make teaching a two way interaction.Use active learning strategies. ...Use different learning mediums. ...Practice. ...Learn from someone with more experience. ...Take frequent breaks.
18. Efforts are made by the institute/ teachers to inculcate soft skills, life skills , value added courses, certificate courses , TI, PI, CC , company specific training and other employability skills to make you ready for the	**(5) To a great extent (4) Moderate (3) Some what (2) Very little (1) Not at all**	26	45	81	224	224	3.96	**79**	Plz give us better teacher as expected mainly for CS subjects□□□.plz give us time for self learning.the regularly conducting of modular tests resulting we are face many problems as we can't got time for self study.it

world of work.								
19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.	**(5) Above 90%** **(4) 70 – 89%** **(3) 50 – 69%** **(2) 30 – 49%** **(1) Below 29%**	64	71	111	209	145	3.50	**70**
20. The overall quality of teaching-learning process in your institute i.e at GIFT is very good.	**(5) Strongly agree** **(4) Agree** **(3) Neutral** **(2) Disagree** **(1) Strongly disagree**	35	38	128	229	170	3.77	**75**
		AVERAGE					**3.88**	**78**

No Lab work is doing properly and institution is always busy with class room studies and extra study related things are not doing which will help us in practical field and some teachers are not so excellent

First is that college teacher are able to explain every topic but they never do that second is didn't take care of their students about they are studying or not third is that they don't provide notes on time

Improve Teaching ability, need guiding and supportive ,treat friendly with student

Appoint experience faculty rather than trainers/fresher

only infrastructure are grow but education system is very poor

By making good skills and development and communication

Thanks for giving me this opportunity to give some suggestions regarding the college. This is my suggestion for mentorship. Whatever mentor is being provided to the students, he should be provided a branch related mentor so that if the student has any question, he can ask him. Thank you.

I think Mca syllabus in our college is theory based by which we can't give much time to the practical knowledge

we need Friendly and expperience faculty who already worked in a corporate office.

No thanks

Our learning experience is very good at this college

Its a very good environment for study

Its is good environment for studing
Veri nice
Well
All good □
All are very good
No comments
To encourage the students for the basic knowledge without any partiality between a good student and the average one
Kindly recommend to properly explain usage of all Teaching usage in future with strong references.
Over all good
Add some valuable course for getting to placement
Everything is good, no suggestions
Everything is good, no suggestions
Stop doing rapid test/exam, give some holiday to students, reduce the study time in summer like 6 hours per class, and improve the college bus quality.
Good
Very good and excellent
Very
Very agree
1)There should be one internal :2) internal back papers should stopped:3) teacher should teach through smart board or projector rather than theories
If the in place of modular test 2 internal exam will conduct of 2 module at a time And another 2 module at a time then both teacher and students feel well, Because teachers were taught very fastly to cover the module which is very hard to understand all the topics at that speed
Not required
I choose all option from my point of view
Please remove the modular test system,and do the previous mid semester examination system so that syllabus is complete and revised and practice and students wil get time to explore other thing also.
please remove modular test
Use smart board for effective learning, atleast 2 modular text in each subject, available ac all of class room
Please use smart borad for effective learning. Then please do atleast 2 modular test rather than 4 .

Nothing else
Teachers should be more cooperative
It is a good Institute, faculty are teaching us well, it's a career making Institute
Nothing
I suggest to improve learning skill
Teachers will be come in class timely & our mentor guide everytime how to learn and ask what's ur problem in your classes..
Plz. Stop the modular test examination and do one internal exam
Our college mangement is not good
Not a good security and not a good hostel management or this college bridge looking a so very beautiful
Excellent college
This hostel not a good security and hostel managment and this college give a good education
Study is very well. The methods of teaching are very Excellent and Before come to the GIFT college I had no Idea but yet I have lot of things
1. Concert don't become clear due to frequently teacher chage.
Use active learning strategies. ...Use different learning mediums. ...Learn from someone with more experience. ...Practice. ...Take frequent breaks.
1 Having compassion and humanity 2 Creating a safe and trusting structure 3 Maximizing positivity / pursuing educational risk
Some teacher are not well teaching.and their behaviour is good. I can suggest you to make a collaboration with the manufacturing company to learn practical knowledge about the transformer making and component making.
Improve the canteen, hostel
First is that faculty are not able to teach properly second is they don't provides college subjects notes from library third is they don't provide a good faculty to understand the student
Very good experience
Good but last year teachers was not properly teaching experience.
Some teacher are good experoence and some not good
1. Teacher should attend class on time 2. Student should understand well by doing prectical 3. Student should understand through projecter
1 Teachers should attend class on time 2 students should understand well by doing prectical 3 student should understand through projecter

1 Fully deep concepts.2 communication .3 time management .
Nothing,always is good
Good
1)Use better graphics and visual media to engage students well. ... 2) Try to reach every student and ask for their doubts. ... 3) Make teaching a two way interaction.
Enhanced the management system of the institution.
College class timing maximum 4 hours, take well behaviour,only one internal exam
The quality of teaching should be increased, and the number of exams create unnecessary FOMO among students, stopping them from participating in extracurricular and value-added courses. Additionally, the number of hours allotted often prevents us from pursuing additional courses, as the institute monopolizes our time. Furthermore, attending extracurricular activities on campus often results in no attendance being recorded, despite attendance playing a significant role (7.5%) in mark calculation. Therefore, I urge you to kindly address these concerns.
Please reduce our class time.. it should be 10am to 4 am , then I am happy
Some teacher having no good personal behaviour. No quality teaching experience. Practical education is not given in the college/institute.
Teaching learning and experience are very good for and we will try to our best
1.Communication, Understanding and Teaching Process it all helps to improve our learning.
By giving Real life Example of the topic which we are learning. It will give encouragement in study . This only my perception. But thanks
1)Focus on skills enhancement rather than class room lectures 2) increase the number of lab class 3)add one more skill based class 4)add anything that may be class or any activity that release stress of students
Teaching skills , revision and exam process
Satisfied
Teach slow and effective
One of the best college .
No
Very well
Very good
Reduce the time period of classes
Focus on Real world project apart from throry

1.Reduce class hour and give extra time to students for self study
Kindly teaching necessary topics which usually used in market current time not the theoritical
Modification of classrooms with projector.
Some freedom for hostelers
Very good
Provide some freedom for hostelers.
Outstanding
Give some freedom for hostellers,Give WiFi connection to hostellers
1.More experienced faculties 2. More practical based approach 3. New or latest courses in teaching
Minimize classes so we get time for selfstudy
Minimize the classes
Manage less time for class hour
Not needed
Well teaching skill
There is no need to any suggestions
Due to 8 hrs long duration of classes both the teachers and students become exhausted and it wastes the time & energy of students, students can utilize the time to learn new skills.As Master's degree student Give students proper time to practice & improve their technical skills(specially for MCA students). As many of the subjects in the semester are out of date. So instead of hurrying about semesters they should focus on updating syllabus with relevant subjects.
Creating synergy among college departments and enhancing teaching methodologies to foster individual student growth and choice is imperative for holistic education. This is the need of GIFT Autonomous.
Very bad...I hope it will change as soon as possible
I'm not satisfied
It's Campus is very good for learning purpose. And our faculties are Good and always encourage us how to perform well and how to be a successful person in life.
everything is okay but some improvement is needed
Improve
Xyz
Nothing
Class timing exam schedule
Focus On skill based class And extra Knowledge
Improve infrastructure of our clg

												Due to continuosly exam we will not able to prepare for other skills or activities.
												Due to continuously exam we will notable to prepare foe other skills or activities.
												Okokok
												Improve your classrooms
												Overall good
												Reduce class time should be 10am-4pm
												Good
												Good
												All are good
												The teachers are very cooperative and makes a friendly connection to us
												Nothing
												1.Communication with all students 2.motivate students
												There are few classes where out of 1hour only 15 minutes are used for teaching.
												Reduce cls time table and also provide some tasks daily and use smart board ....tq
												1. Communication with the students 2. Empowering students 3. Improvement of class timings needed
												Smart board should be use, properly maintain all process of course learning
												1-Communication with the students 2-empowering students 3-improvement of class timings
												Very Good
												Very good
												Good
												Wow
												Cover the whole syllabus with proper time limit (doesn't go rapidly)
												Here has good teacher
												Cover the syllabus before exam . If you can't then remove modular exam
												Reduce the pressure on the students. Cover the syllabus before the exam. And remove the modular exam
												Not
												Cover the syllabus before the exam. Stop the modular exam. Reduce the pressure on students

										Cover the syllabus before the exam. If you can't remove the modular exam .2 .we need some experience faculty
										Only theory in doing in class no one doing experimental not give any activity
										Cover the syllabus before exam .pr remove the modular test
										Cover the syllabus before the exam . Or remove the modular exam .
										1. Change the food menu in canteen 2. Timing should be change in summer (6-12) days 3. And in the exam time cover the syllabus before any exam .
										Time table change
										1. Classes should be less
										1.change the food menu in canteen. 2. Classes should be less
										Language problem is high proficiency in college
										Cover the syllabus before all modular exam
										Hostel water filterwork poorly, food Manu change,each lab class fit Ac
										Very vast syllabus, frequently examination done and gap of self study with semester exam, subject specific project concept was very bad and mentally harashig to us
										Nice teaching my everything
										Need a basketball ground with coach to teach us as well should organise intercollege matches college should support in sports too
										Overall good
										It's needs to be time healing process recording the intercourse of the students
										Reduce exam
										To give same important to all subjects equally.
										It was good.
										Teachers should be resembled by themselves to be a student , then may be they can feel something or improve their teaching quallity. I am very proud to be B. Tech student at GIFT AUTONOMOUS . Overally in our class some teachers are very good where as others are teaching in their mood that's alos very bad . Teachers should improve these
										Reduse examination
										Course overall completed for modular test.but all are good.
										Flexible Class Timing: Incorporate flexibility in class timings to accommodate the preferences of different students. This means offering different time slots for various classes so that students can coordinate with their other commitments and adapt according to their own schedules.

											Good experience yet.
											Teaching process is too good. Give extra time to increase our skills
											Learning is very good but cls is very overloaded 8 hr cls in gift clg
											If the class is reduced to 3 or for hours then we have the opportunity to teach others course like Java python or other web development courses
											Well good
											Teaching process will be very good . And give extra time for increase our skill on playing games.very good institute GIFT to all student's
											Good
											Improve class room,improve timing of class and improve lunch time
											▢
											Try to improve the Ac and management which is responsible for our late lunch timing which do a great impact on our classes
											1.To give same important to all subjects equally. 2. To complete syllabus in particular time and in fruitful way. 3. Have a conversation between teacher and student to clarify what problems individual faces. 4.To listen to students doubt or worry to some extent that can make student relax before exam.
											Improve in the management in the canteen area also in class timing
											The teaching qualities are very good
											Gandhi institute for technology is a excellent college.
											Due to modular test course completion is not done by the teachers and even we get very less time for preparation so it becomes a lot of pressure. We get very less holidays and our lunch is not sufficient for us . Continuous and long class hours without any break gives us a lot of pressure.
											Due to modular test course completion is not done by the teachers and even we get very less time for preparation so it becomes a lot of pressure. We get very less holidays and our lunch is not sufficient for us . Continuous and long class hours without any break gives us a lot of pressure.
											Worst management
											To teach us through projecter
											Worst management
											In this college management is good but the curricular activities is bad
											There is an AC in the room but not working that's why there is difficulty in reading.
											Worst management
											AC is not working that's why there is difficulty in reading.

												Certainly! Here are three observations and suggestions to enhance the teaching-learning experience at GIFT Autonomous: 1. **Active Learning Strategies**: Implement more active learning techniques in classrooms. Encourage group discussions, problem-solving activities, and hands-on projects. This approach fosters student engagement and critical thinking skills. 2. **Technology Integration**: Utilize technology effectively to supplement traditional teaching methods. Incorporate interactive multimedia resources, online platforms for collaborative learning, and virtual labs to provide students with diverse learning experiences. 3. **Feedback Mechanism**: Establish a robust feedback mechanism for both students and faculty. Regularly solicit feedback from students about their learning experiences and use this information to adapt teaching methods accordingly. Similarly, encourage faculty to seek feedback from students to continuously improve their teaching strategies.
												We want an active smart board teaching so that we could enjoy real time learning with fun. Addition to it we want a seperate club for developing smart skills like learning iot, ai, etc so that we could be updated and go with market trend. I also think our hobby class time should be utilize well like all should actively participate in various activities for which college should promote and add various clubs
												Our room AC is not working □
												All is well
												1.Help the students for project making .
												Faculties are good
												All is well
												Best , good , exlent
												Wrost
												More Interactive Learning: - Use online forums and virtual classrooms - Create a sense of community among students. - Personalized Learning Paths: - Offer different learning materials for different students. - Embrace Technology: - Use educational apps and multimedia resources. Provide training for both students and teachers to use technology effectively.
												ଭଲ ଅଛି ଆଉ ଟିକେ ଭଲ ହେଇ ପାରିବ
												To make college class timing less. College management is very less . Teacher ragging us for backing in paper and not encouraging us for studying, instead discouraging us. They give us very less time to make our assignment & presentation & projects.
												The management should look after student's more often and should manage the exams time schedule .

											Should Focus on more basic concepts and practical.
											Improvement in conditions of practical laboratory. 2 regular practice of the subject 3. Etc
											Not able to communicate with all the students
											1.Teaching language should be student friendly for hindi students.
											Not working AC all room.modrate teaching in class.High pressure for all students. 4 assignments and 4 modular test is high pressure for students .
											GIFT IS A VERY GOOD INSTITUTE AND ITS TEACHING PROCESS IS VERY WELL.
											Nothing
											1. Make learning fun with interactive tools. 2. Work together in groups to learn better. 3. Keep talking about what's working and what's not.
											1. Incorporate real-world projects for practical learning. 2. Use diverse teaching methods to accommodate different learning styles. 3. Improve communication channels for effective interaction among students, teachers, and staff.
											Good
											Sure, here are three suggestions to enhance the teaching-learning experience at GIFT Autonomous: 1. **Implement Interactive Learning Techniques**: Incorporate more interactive learning methods such as group discussions, case studies, and simulations to engage students actively in the learning process. This can promote critical thinking, collaboration, and application of theoretical knowledge to real-world scenarios. 2. **Utilize Technology Effectively**: Leverage technology to its fullest potential by integrating online learning platforms, multimedia resources, and virtual labs into the curriculum. This can provide students with flexible learning options, facilitate access to a wide range of educational materials, and enhance their digital literacy skills. 3. **Promote Continuous Feedback and Assessment**: Establish a culture of continuous feedback and assessment by regularly soliciting input from both students and faculty members. This can help identify areas for improvement, tailor teaching approaches to meet the diverse needs of learners, and ensure that the curriculum remains relevant and up-to-date.
											Communicate with every students not only with good students but also with the average students . Gaps for exam, continuous exams frustrate us.
											Yes

											Some teachers are having very good teaching experience but other have very cruel behaviour with students, unsatisfied talking in class rather teachers are good very poor behaviour unsatisfied nature.
											To improve overall teaching process, Institute need to be experienced faculties and make changes in timetable management so that students and teachers are not face any kind of problem. Thank you
											Good
											Implement Interactive Teaching Methods,Enhance Technology Integration,Foster Collaborative Learning Opportunities.
											First - Teachers have to communicate with students (Both Intelligent or average) for approx 10-15 minutes what they done previous class , Second- When teacher give us assignment we did that if there is 20 questions we do 15 questions but teacher don't check it just see and sign, Third - This continuously exam of modular test is not good for us plz change this system we don't got time for preparation, 2 modular test is good but 4 modular is not good so change this.
											No suggestions for improvement overall GIFT autonomous is best
											The ac is not working properly.in modular test is takes suddenly minimum 15 days gape required to prepare 1st modular to 2nd modular exam.to improve overall teaching process, institute need to be experienced faculties and make changes in time table management so that students and teachers are not face any kind of problem.THANK YOU
											The ac is not working properly. In modular test is takes suddenly minimum 15 days gape required to prepare 1st modular to 2nd modular exam. To improve overall teaching process, institute need to be experienced faculties and make changes in time table management so that students and teachers are not face any kind of problem.THANK YOU
											Some teachers having very rude behaviour towards the students. Although they teach well but not have a perfect behaviour towards the students.
											Give project based on the topic which are teaching in class and please change the module exam system because of this we are unable to give proper time for our project we are starting one project working on it suddenly module testing and after 6 days another so how we will do our project on time.
											We should have a smart class for real time virtual learning so that we should be updated with the trend.we should atleast go for factory visit.
											Excellent
											That's is good

											1. Shouls reduce the class timings , 2. To have quality class not so much of quantity , 3 . sould give more time in between two exams
											To improve college classes time and give attention to every student
											All correct. No issues
											GIFT college is good.No need to change.
											Good
											Good
											Every thing is good
											Improve mentorship quality, Add necessary soft skills in syllabus.
											Diversify Instructional Strategies GIFT Autonomous could benefit from diversifying instructional strategies to cater to different learning styles and preferences among students. While lectures are valuable, incorporating interactive methods such as group discussions, case studies, and project-based learning can enhance engagement and deepen understanding. Encouraging instructors to integrate multimedia resources, simulations, and real-world applications into their teaching can also make learning more dynamic and relevant.
											Diversify Instructional Strategies GIFT Autonomous could benefit from diversifying instructional strategies to cater to different learning styles and preferences among students. While lectures are valuable, incorporating interactive methods such as group discussions, case studies, and project-based learning can enhance engagement and deepen understanding. Encouraging instructors to integrate multimedia resources, simulations, and real-world applications into their teaching can also make learning more dynamic and relevant.
											Good
											Implement active learning strategies, incorporate technology, providing ongoing feedback
											It can improve
											1st correct our time table. It has many problems of our students. That's All

											1. Enhance Interactive Learning: Incorporate more interactive elements such as group discussions, debates, and hands-on activities into the curriculum to engage students actively in the learning process. 2. Implement Technology Integration: Integrate educational technology tools and platforms to facilitate personalized learning experiences, foster collaboration, and provide access to a variety of resources to support different learning styles. 3. Foster Continuous Feedback: Establish regular feedback mechanisms for both students and faculty to identify areas for improvement and address concerns promptly, ultimately enhancing the teaching-learning dynamic and promoting a culture of continuous improvement.
											Teachers are very kind
											My experience in this college from last 10 months was quite effective through which I enhanced much qualities and enjoyed the studies which are clearly distributed through the faculties and our respective subject teachers.
											All the Theory lasses, Laboratory classes are well conducted. The think that needs to b improved is that The college must signify or promote the steps or assignments that are necessary for future... Not those which are useless. Good experience
											Okay, but the system can be improved further..
											I satisfy with this teaching style our institution .
											All teachers are good . But some teachers behaviour are very bad .
											Important in food
											Or thoda acha ho skta hai
											I satisfy with this teaching style our institution.
											Teaching style is very impressive
											1) firstly you have to reduce the time hour of individual class because due to 1 hr class students can't able to attend class for long.2) start mid semistry single test because due to modular test we can't able to study in well manner because due to non stop modular test.3) teacher have to communicate with all students
											There is nothing in institutions to overcome.
											Goood
											Yes it is better but it will need better
											All teachers are very good and responsible teachers .My experience in Gift college is nice
											Excellent
											No its good and enough.

												There should not be modular test 4 modular test because students are not prepared sufficiently and get low score . If Modular tests are conducting then first the syllabus should be completed. Generally our syllabus is completing one day before the modular test. Thank you !!
												Improve in teaching ,please conduct AC in all class room,over all improve the practical skills of student
												Gift is a good institute for education
												Use better graphics and visual media to engage students well. ... Try to reach every student and ask for their doubts. ... Make teaching a two way interaction.
												Very good
												The teaching quality is very good and useful very helpfull information
												Yes
												I think module test should not be held because due to this module tests students will are not able to increase their Skills. As for me the study in the college class room is not sufficient for an engineering students, they would be able to gain that much knowledge from that teaching. I know it is necessary but as for my recommendation the college time should be less as like other colleges (you can take some examples from some reputed colleges) , if the students get time they can improve their skills. And one thing that i have thought that I will take part in hobby clubs but when I joined in this college and know about the hobby clubs I really shocked, so you must improve the hobby classes and assign seniors or some teachers for the coding hackathons , as It is engineering college you must improve lot of things so that we can making our college as a bast college.
												Sure, here are three suggestions to enhance the teaching learning experience at Gift Autonomous to improve our hubby club , providing regular feedback assessment can help students track their development & stay motivated , Implementing project-based learning initiatives could significantly enhance the overall teaching-learning experience at GIFT Autonomous.
												Modular test is the best idea for improve the learning experience
												Yes
												Yes
												There should be two modular test instead of four.We all have faced a lot of problems while preparing for the exams and the time gap is also too less and Teachers are also in a hurry mood to complete the course.
												Lunch time is not sapients
												1.cover up the syllabus then after make the examination.

											1.Over up the syllabus than after the examination
											YES
											1 . Teachers must take care of all students not only the good but also the worst . 2. The work load is more than normal level. 3. There must be a sufficient gap between examination and holidays must be given around 20 day .
											Lack of experienced faculty.No proper doubt clearing classes.without completing the syllabus we are appearing the examination. No strict rules,regulations are followed during examination.
											Modular test
											There will be two modular test instead four, we are facing a lot of problems while preparing for the exams as the time gap between two modular tests is less.
											1.Increase the time of lunch break. 2.Reduce some class hours, that the students get some time for rest.
											Modular text is good but better is Mid semester.If Modular text comes please give space between exams like 2-3 weak. We suffered for Modular text.
											1.Try to decrease assignment
											Teachers must take care of all students not only the good but also the worst . 2. The work load is more than normal level. 3. There must be a sufficient gap between examination and there should be a holiday gap around 20 day .
											Try to decrease the assessment questions,
											The lunch break that provided must be extended as most have the students have to take in that time and there was a huge crowd, otherwise maintain the lunch break time as possible.
											We need more exam time for modular tests, and proper days' gaps between the modular tests should be maintained, which is currently not happening. Additionally, lunchtime should be extended so that all students can have lunch properly.
											1. Some teachers are just come and started by the story telling, and always diverted from main base of chapter. 2. Teachers don't give any deadline of subject specific project and always asked what is the progress, due to which we always worried about the project and can't give time to our study time. 3. Try to decrease assignment questions because more than 100 questions which are repeated that's value less and disgusting. 4. Due to frequently modular test with less time of distance we can't give focus to our self study. Thank you

										The break time should be extend , 30 minutes is not enough for eating and going back to class again and there is no network in our hostel floors and the wifi is also not working properly and due to the network problem we are facing a lot of problem in studies and other purposes
										Teacher should be calm and quiet they should be pity Holiday should be increased in my opinion Exam should be less so that students should get much sufficient time to study properly or thoroughly
										1.I think some teachers should be coordinated.2.Find out an easy way for those who are unable to understand the concepts.3.They should share some energetic stories which should inspire us.
										□
										To reduce class time
										Teachings style is vey easy
										1.Working hours are too long
										Working hours is too long
										1: Classes must be reduced 2: lunchtime should be extend 3:Each class room should maintain with air conditioner
										Please conduct the exam in schedule which is suitable for students and Remove the canteen staffs which were rude and also arrogant in behaviour □
										1.Working hours are too long. 2.Too many exams, assignments and projects to be able to study. 3.Few teachers are cooperative with students. 4. Lunch hour is very short and a lot of students come at a time so it's hard to get lunch.
										1.Working hour is too long 2.too many exams assignment and projects.3. few teachers are cooperative with students.4.lunch hour is very short and lot of students come at once
										1.Working hours are too long, too many exams, 2.assignment and project, 3. Few teachers are very cooperative with students 4. Lunch hour is very short , lot of students comes at a time so it's harder to eat and sometimes food quality is very bad.
										It should be more dynamic and practical so that it'll be more effective.
										More Practical classes, Use of more technical support, take Opportunity to everyone students
										Adding new graphics in the classroom sessions for students
										Treat equally to every students and use New technologies for the students in classroom.
										Interactive learning platform
										Excellent

											All is good 🙂🙂
											It is great
											It's very good
											Use better graphics and visual media engage students well .
											Use Cooperative learning...
											My all teachers are very much cooperative, I learned lot of things from my institute,for me like a management student this is one of the best institute for learn and get more informations about studies with other extraordinary activities.Lot of thanks to my all teachers and my mentor.
											Use Cooperative learning ...
											Teacher's should have instructional objectives.
											Required more professor
											More active learning techniques in classroom to engage students more effectively.
											Everything is ok
											Every thing is well
											Teacher's always encourage us to learn something new
											Very good - good - moderate
											More practical classes, Use of more Technical support, Take opportunity to every students
											All good but plz take more practical classes and plz take care students problem
											All are good
											Technology Integration,Active Learning Techniques,Regular Feedback Mechanism
											Very good
											All good
											Fair
											Average
											Be clarity in the lectures through the understandable language
											Yes
											Subhasmita swain
											Nothing
											Management students should be taught to manage the stuff with limited resources,It classes should be 3 days instead of one day teacher should give the practical assignment Where actual management skills required not only academic theoretical questions.

| | | | | | | | | | | Gift is a very impressive college.The teacher's are very supportive .The environment is very study friendly. |
